BAP Program Rule Summary:

- Any given species of fish can be submitted only once. Additional distinct subspecies, locations and variants of a species can also be submitted, provided that they are naturally occurring strains, not aquarium strains.**
- Providing a valid scientific name is required. If you are unsure of the scientific name, please ask the BAP Chair or the BAP database manager**
- Submitted fish must have been spawned by the participant and at least 4 fry at 60 days or older must be submitted along with this form.**
- Please notify the chair before starting a specialization award attempt.**
- BAP Chair has final say in entry qualification, classification and point value.**
- A full list of the rules can be found at <http://www.aquarium.mn>**
